

CoQ Energizer

CELLULAR BIO-ENERGIZER

60 Count Vegetarian
Softgel Capsules

gras
Generally Recognized As Safe

BioPerine® is U.S.A. GRAS self affirmed ingredient

BENEFITS

- Cellular energy booster
- Supports healthy aging and longevity
- Helps in prevention of loss of muscle tone when given as an adjuvant therapy along with statins
- Helps protect against the cellular damage from excessive free radical activity
- Enhances "beauty from within" by supporting healthy skin, hair and nails

CoQ Energizer

Suggested Usage:
One Capsule twice a day
after meal or as directed by physician

CoQ₁₀ (Coenzyme Q₁₀) is naturally found in the energy producing center of the cell known as mitochondria and is a fat-soluble substance, structurally similar to vitamin K. It has an electron/proton carrier that helps the mitochondria to produce adenosine triphosphate (ATP), the body's energy source. This is vitally important because mitochondria must continuously generate ATP to support every cell in the body.

CoQ₁₀ and cholesterol synthesis share a common pathway in the human body. Statins are a class of drugs used to lower the cholesterol levels by inhibiting the enzyme HMG-CoA reductase. Thus in the process, statins reduce levels of CoQ₁₀ in the body.

CoQ₁₀ is found in high amounts in the cells. With aging and in most of the disease conditions, CoQ₁₀ production is reduced. However, high energy is required for the functioning of the body. Thus, it has to be supplemented to maintain normal body functions.

Coenzyme Q₁₀ supports body functions, boosts energy production, metabolism, a healthy immune system and the body's natural healing processes.

Each Vegetarian Softgel Capsules Contains:

Ingrdient	Quantity per Capsule
Coenzyme Q ₁₀ (Ubidecarenone)	60 mg
Vitamin E (From Vegetable Oil)	50 IU
BioPerine [®] * (<i>Piper nigrum</i> fruit Extract)	2.5 mg
