Healthy, Wealthy & Wise

Vitamin D3

Suggested use:
One (1) Tablet per day after meal
or as recommended
by healthcare practitioner

Vitamin D3 is manufactured by the body upon the skin's exposure to sunlight. It can also be supplemented from dairy products, egg, fish and meat. Vegans and vegetarians are at greater risk of suffering from vitamin D deficiency.

Vitamin D is essential for calcium absorption including strong teeth and bones. It also plays a vital role in overall health like immune system, muscle function, cardiovascular function, brain development and overall neurological function.

Severe Vitamin D deficiency may sometimes cause a disorder in children called "rickets" and "osteomalacia" in adults. Both of these conditions result in thin and brittle bones. Low and non-optimal values of Vitamin D have also been linked to many metabolic disorders.

Vitamin D3 from **Sami Direct®** contains 2000 IU of **Cholecalciferol** powered with **BioPerine®**, a patented bioavailability enhancer ensuring maximum nutrient absorption.

Each Film Coated Tablet Contains:

Ingredient	Quantity per Tablet
Vitamin D3 (Cholecalciferol)	2000 IU
BioPerine®* (<i>Piper nigrum</i> fruit Extract)	5 mg
