Citrin®

(Garcinia Cambogia)

TRIPLE ACTION WEIGHT MANAGEMENT

90 Count
Vegetarian Capsules

BENEFITS

- Helps ideal weight management
- Increases oxidation of fat
- Suppresses appetite
- Clinically validated safe and effective ingredient

Citrin®

Suggested Usage:
One Capsule thrice a day before meal
or as directed by physician.

Obesity is described as a global epidemic and overweight and obese individuals (BMI of 25 and above) are at increased risk for various chronic physical ailments and psychological problems, such as depression, eating disorders and low self esteem. There is a constant need and search for safe natural approach to help manage obesity and its related socio-economic consequences.

Citrin®, comprising salts of Hydroxycitric Acid (HCA), is clinically proven to enhance lean body mass and support health body composition. The active constituent (-) HCA isomer is found in the rind of *Garcinia cambogia* fruit.

The fat regulating mechanism of HCA was uncovered by scientists and is reported to be multi-pronged. Hydroxycitric acid is a reversible inhibitor of citrate lyase, which leads to the reduction of fatty acids synthesis and lipogenesis, thus supporting weight management. It also facilitates the oxidation process of fatty acid by activation of L-carnitine transferase, which promotes fat loss, and in turn meets the energy requirements of the body. Hydroxycitric acid provides a sense of satiety to the user and this has been clinically found in our various Citrin® trials.

Clinical studies using Citrin® on overweight human subjects brings about a significant reduction in body weight, while the blood levels of triglycerides (TG), Very Low-Density Lipoproteins (VLDL) and Low-Density Lipoproteins (LDL) were significantly lowered.

Clinically validated, safe and effective, SAMI Direct's Citrin® Capsules along with a balanced diet and exercise regime is the solution to the innumerable weight management problems across the globe.

Each Vegetarian Capsule Contains:

Ingredient	Quantity per Capsule
Citrin®* (<i>Garcinia cambogia</i> fruit rind Extract)	500 mg
