BioPerine® is USA GRAS self affirmed ingredient

BENEFITS

- Helps maintain healthy liver functions
- Supports body's natural mechanism to eliminate toxins
- Protects the liver from hepatotoxins
- Supports metabolic process leading to sustained energy levels and stamina

LivStrong

Suggested Usage:
One capsule twice a day after meals
or as directed by physician

The liver is both the largest internal organ and the largest gland in the human body. It carries out different functions designed to maintain a favorable internal environment in the body (metabolic homeostasis) and helps to protect against infections.

Lifestyle choices are leading causes of the liver disorders, in addition to factors such as obesity, diabetes, infectious and other harmful chemicals and pesticides. An active and effective detoxification process, which can be carried out only by the liver, is thus essential.

It is thus important to maintain a good, well-balanced diet and a healthy lifestyle in order to protect the liver. Body cleansing and detoxification helps rid the body of accumulated harmful substances that exert a negative effect on the health of an individual.

The ingredients of LivStrong have been chosen with care to offer a comprehensive and holistic support to hepatoprotection. It is a judicious blend of ingredients that can be used to provide antioxidant support as well as body detoxification by maintaining healthy liver functions.

Each Vegetarian Capsules Contains:

Ingredient	Quantity per Capsule
